

HASP DEVICE DRIVER INSTALLATION INSTRUCTIONS

Windows '95, '98, Me, NT4.0, 2000 and XP

1. **Windows NT, 2000 and XP users only:** Log onto Windows NT, 2000 or XP with “administrative” rights to the system.
2. If you are running a network version of MFS close the HASP License Manager down before continuing with the installation.
3. Double-click on the file **Hdd32.exe** that you downloaded from the internet. (This can be done in Windows Explorer.)
4. The Welcome screen will come up. Click on the **Yes** button to continue the installation.
5. On the Installation Status Screen click the **Next** button to continue. Note: If you are running an anti-virus program you will experience a delay in the installation of the device driver. Wait for the program to tell you it has been successfully installed.
6. Click the **Finish** button on the finished screen. Your installation is complete.
